

Varga-Flexo Ltd.

Varga-Flexo Ltd. was founded in 1993 by Endre Varga and his son Denis Varga. Endre transferred the enterprise to his son in 2010, but he follows the daily work, assists his son's decisions and trusts that his grandchildren who already participate in the life of the company, will carry on the generational change.

We design and produce flexographic printing press, laminator-slitter, plate mounter equipment.

Our customers are flexible packaging producers who expect the best price versus value for quality prints, laminating, slitting and economical machine operation.

Our head office is in Budapest (Hungary) and our production facility is in Lengyeltoti (Lake Balaton) where we use state-of-the-art technology in production.

The main consideration during the design of our machines is best possible print quality, laminating, slitting and reliable operation, sturdy machine frame, quick change-over and application of cutting edge technology. Easy handling, accessibility and machine operator-friendly covers are also important factors.

We work with ISO 9001:2009 quality management and ISO 14001:2005 environmental management system. Each one of our newly produced machine has CE certification and safety certificate of conformity.
